
Be Safe. Stay Healthy.

Tips and guidelines on how to stay safe and healthy now that mandates are lifted.

Covid-19 is still around us

While it may seem that the pandemic may be “over” because mandates have been lifted, Covid-19 is still something that we will have to learn to coexist with in our society.

Wash hands frequently

Frequent hand washing not only helps prevent the spread of Covid-19, but many other illnesses that we can come into contact with every day.

Vaccines will continue to be available

Covid-19 vaccines will continue to be available for those who wish to get the vaccine. Vaccines have been proven to be effective in preventing the spread of Covid-19. Visit ottawahealth.org to schedule an appointment.

Be respectful

Not everyone you encounter in public is going to be ready to give free hugs. Some may still be wearing masks. Others may want to keep a distance and avoid crowded areas. Please keep this in mind.

Stay home if not feeling well

If you are experiencing a fever or other Covid-19 symptoms, please consider staying home. You may not have Covid-19, but avoiding others when experiencing symptoms helps to prevent the spread of any illness you may have.

Test kits are available if you are experiencing symptoms

Contact the Ottawa County Health Department if you are experiencing Covid-19 symptoms for a free 15 minute rapid test.

Stay Educated

Visit the Ottawa County Health Department (ottawahealth.org), Ohio Department of Health (coronavirus.ohio.gov), and CDC's (cdc.gov/coronavirus) websites for the most current information.
